Key Features

Superior Strength and Durability:

Our products are engineered for maximum strength, ensuring they withstand the toughest road conditions and daily wear and tear.

Advanced Painting with Conweigh System:

We employ the Conweigh system in our painting process, delivering consistent, high-quality finishes that enhance the durability and longevity of our components.

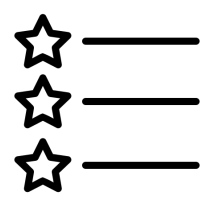

Premium PU Paints:

We use Polyurethane (PU) paints known for their superior resistance to fading, UV rays, and environmental damage. Our confidence in quality is backed by a 3-year warranty against paint fading.

Precise Color Matching:

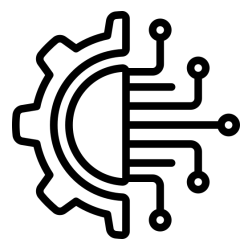

We ensure perfect color matching with original company products, offering seamless integration and a flawless finish for every two-wheeler.

Why Choose Hanumant Polymers?

Comprehensive Product Range:

Our extensive selection covers nearly all two-wheeler models in India.

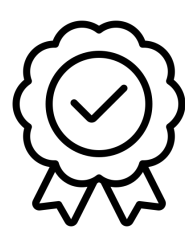

Cutting-Edge Technology:

Utilizing advanced systems like Conweigh and PU paints, we deliver top-quality products that meet the highest industry standards.

Strength and Longevity:

Our products are not only aesthetically pleasing but also built to endure, providing strength and durability that you can rely on.

Warranty Assurance:

We offer a 3-year warranty on paint fading, ensuring peace of mind with every purchase.
