- Melting Temperature

OUR CLIENTAGE

PP & PPCP

Hanumant Polymers has a vast team of dedicated professionals that is involved in the manufacturing of the best series of Polypropylene Co-polymer Granules. We manufacturer PPCP chemical compounds which are impact modified and other properties like high tensile strength etc. PPCP compounds are extensively used in a variety of molding items such as mirror housing, plastic handles, buckles, automobile interiors, body parts and accessories. Not only this, our range meets industry standards, that is used in the production of various plastic products.

Grades offered by us

- PP & PPCP Black
- PP & PPCP all colours

General Porperties

- Impeccable strength
- Weather proof
- Elastic Resistance to Chemicals
- Contamination free etc

Applications

- Electrical Applications
- Bell Housings
- Key
- Motor Plastic Fans .
- Extension Cords
- Cooler
- Side Mirrors (Auto Parts)
- Engineering Components etc..

ABS

Acrylonitrile
Butadiene
Styrene

Grades offered by us

- ABS Black
- ABS Natural
- ABS Colours
- ABS Glass-Filled
- ABS FR (Fire Retardant)
- ABS-PC Blends (others as per order)
- Impact modified grade

General Porperties

- Rigid
- Opaque
- Tough
- High Gloss

Applications

- Indicators
- MCB Covers
- Electrical Applications
- Engineering Components etc.
